## Suffering from Hurricane Amnesia?

*It only takes one bad storm to make people wish they were better prepared.*

Dear Nikki,

It's called "Hurricane amnesia" – that **false sense of security that sets in after years without a storm**. In Florida, which hasn't seen a major storm in 11 years, nearly half of the state's residents have not prepared for a hurricane, according to a recent AAA study.

Citizens in your area may suffer from Hurricane Amnesia, **but your agency might be suffering too!**

To make certain **unforeseen events don't hamper your agency's network operations and its effectiveness, look to [Hughes Emergency Preparedness Solutions](#)** which can deliver:

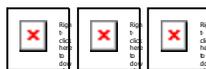

- Nationwide broadband service and Internet Access plans that can be **deployed in just 24 to 48 hours.**
- Inter-Government Crisis Network providing **highly reliable and resilient communications for decision-makers** who need to work together during emergencies.
- **Rapid mobile deployments**, such as vehicle-mount terminals and flyaway kits with a self-pointing antenna system for **instant, high-speed broadband satellite connectivity.**

Don't be lulled into a false sense of security. Hughes can have you covered with **both proactive and reactive emergency communications solutions. Call 1-888-373-0235 for a consult today, or [have our experts contact you!](#)**

**Learn more about the importance of improving emergency communications at every level of government!**
