

August 23, 2016

Dear The Honorable Nikki Haley,

I am writing this letter as a final attempt to obtain closure to SLED Case #: 70-15-0132. I found images on our marital computer and provided my father, a retired Virginia State Trooper, with a flash drive containing a copy of the images. My father forwarded the flash drive to the authorities in the State of Virginia for assistance. Please refer to the letter from the Commonwealth of Virginia in the attached documents. You will note, that in the second paragraph of the letter, the special agent states "It was apparent it contained child pornography." The flash drive was sent by the Captain of the Bureau of Criminal Investigation to SLED in Columbia, South Carolina. The investigation proceeded and the documents have been provided as an attachment to this letter.

Todd Cox, Major Crimes Detective, in Conway, South Carolina, notified me via a phone call that the case was closed after discussing with the Solicitor's Office and that I could receive a copy of the report via the Freedom of Information Act. I asked him why they were not going to look further into my husband's behavior based on the evidence found. Todd Cox stated that they could not prove that my husband is the person who performed the searches. I again asked why the case was just being closed with no further investigation and he would not answer my question. He said, "I know it's immoral." I followed up with the Conway Police recently looking for an answer to my question and have had no explanation.

I searched child pornography laws in South Carolina and see that you have had extensive involvement in the proactive movement to delineate what is, and what is not, deemed child pornography. It is no longer just videos of children being involved in the act, but even still pictures deemed to be used for personal pleasure.

Governor Haley, I am pleading for help. I just want to know why this case was closed with no further investigation into the internet behavior of Gregory Martel. Why is the evidence obtained not probable cause to investigate further? Please refer to the search terms that were used in his internet search for pleasure. He searched for teens and also for 14-16 year old teens. We have joint custody of our two very young children and they don't need to be exposed to such immoral behavior. I know Greg did this, I have emails from him referencing his internet activity. I know that this is not urgent to the police because at this time no one is being harmed, however, it is urgent to me. I am responsible for two small children and their wellbeing. I know he is probably still doing it. As Mark Bonner said, "Once people do this, they always do this." Greg works at Coastal Carolina University and is surrounded by teenagers all day. I first and foremost look out for my own children, but then I also have a responsibility to all the parents who send their children to CCU for education. I trust in you and that you will help me find the solution to this case.

I would be so grateful for your assistance in this matter. I have provided you with a copy of all the documents I have for your reference. Please feel free to contact me and help me resolve this matter.

Respectfully yours with sincere gratitude,

Samantha Martel

Report of Investigation

Detective Todd F. Cox

Case No: 15069801
Offense: Possession of Child Pornography
Date: July 28, 2015
Suspect: [REDACTED]
Location: 162 Pinfeather Trail Myrtle Beach, SC 20579
Victim: State of South Carolina

On July 28, 2015 Detective Todd F. Cox of the Horry County Police Department – Major Crime Section was assigned to investigate a Possession of Child Pornography case. One Samantha Anne Martel (DOB: 08/08/1979), stated that her estranged husband, identified as one [REDACTED] had downloaded multiple images of naked children on their marital computer. She discovered the images through the use of data recovery software that she utilized on the computer in January 2015. Ms. Martel forwarded a thumb drive containing the images to her father, identified as one Rick Morris, who is a retired Virginia State Trooper. Mr. Morris utilized his connections at the Virginia State Police to have the thumb drive examined by that agency’s High Tech Crimes unit, at which point “it was apparent it contained child pornography”. The thumb drive was then forwarded to the South Carolina Law Enforcement Division, who in turn forwarded it to the Horry County Police Department for investigation.

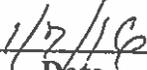

Ms. Martel voluntarily relinquished the computer in question (Gateway Model – MFATXPNT NMZ 500SE, Serial# 0028128370), to Detective Cox on July 28, 2015. On August 6, 2015 Detective Cox presented a search warrant affidavit to Magistrate Aaron Butler seeking a search warrant for forensic analysis of the computer's hard drive. Judge Butler found that probable cause existed for such a search to be conducted; he issues a search warrant on that date. The computer was submitted to the South Carolina Law Enforcement Division – Computer Crimes Unit with a request that the appropriate forensic analysis be conducted.

Senior Agent Michael Lynch of the South Carolina law Enforcement Division conducted the requested analysis, which indicated the following facts: The computer hard drive reflected the photos provided to law enforcement on the thumb drive, a small number of those photos could be construed as child pornography. Those images appeared to have been obtained through internet searches for teen pornography websites, which have a disclaimer on their homepages that states that all models are of legal age. Lastly, the recovery software altered the metadata in that it changed the file paths to the recovery date, thus all files showed that they were downloaded on January 10, 2015.

In consideration of the sensitive nature of a case such as this, Detective Cox conferred with Assistant Monica Wooten of the 15th Circuit Solicitor's Office. Upon doing so they concurred that the case was not prosecutable. Based upon this conclusion, the status of the investigation is Exceptionally Cleared – No Prosecution.

Re: Thumb Drive Containing Images of
Child Pornography

Dear Special Agent Lynch:

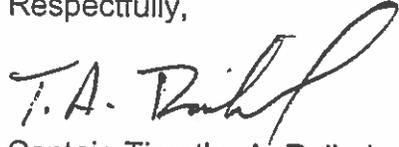

On February 21, 2015, Virginia State Police Special Agent C. S. Wade was contacted by retired Trooper Rick Morris of 21562 Fox Grove Road, Parksley, Virginia. Mr. Morris advised Wade that his daughter, Samantha Martel, of 162 Pinfeather Trail in Myrtle Beach, South Carolina was going through a divorce and had located a large amount of pornographic photographs on her laptop. Mr. Morris stated that the photographs were of young females and that Mrs. Martel suspected that some of the girls may be underage. Mrs. Martel believes these images were downloaded to her computer by her husband. Mr. Morris advised Wade that his daughter had utilized software that she purchased on the internet to retrieve the deleted photographs and had copied them to a thumb drive. The thumb drive was mailed to Mr. Morris based on his previous law enforcement experience. Mr. Morris, due to being retired, asked Wade if he could review the photographs to determine if they were in fact child pornography.

Wade contacted a special agent with our High Tech Crimes unit and asked if he would review the photographs to see if they were illegal. Once the thumb drive was reviewed it was apparent it contained child pornography. At this point, it was decided to notify the proper authorities in South Carolina due to the lack of our jurisdiction and for proper investigation. Mrs. Martel was advised the lap top would be needed for analysis, and would be contacted by the proper authorities in South Carolina.

Mrs. Martel asked for discretion when contacting her reference this information and can be reached at (757) 894-1440.

If you have any questions, please contact Lieutenant Brian D. Olha at (757) 549-3203.

Respectfully,

**REASON FOR AFFIANT'S BELIEF THAT THE

On February 21, 2015 the Virginia State Police came into possession of a thumb drive believed to contain pornographic images of children. Said thumb drive was sent to them by one Samantha Anne Martel, who allegedly found the images on her home computer in the Myrtle Beach area of South Carolina. Said thumb drive was transferred to the South Carolina Law Enforcement Division, who in turn relinquished it to the Horry County Police Department. The case was assigned to Detective Todd F. Cox (Affiant) of the Horry County Police Department – Major Crimes Section for additional investigation. Upon the Affiant's review of said thumb drives he was of the opinion that some of the images contained therein were in fact child pornography. On July 28, 2015 Ms. Martel met with the Affiant and relinquished the computer in question, which is a Gateway desktop, Serial # 0028128370. Additionally, Ms. Martel provided a voluntary statement in which she implicated her estranged husband, identified as one [REDACTED] as the individual who searched for and downloaded said images.
