Historical Information

Historical Information:

This site is an unmarked cemetery located in the median of Interstate 26. The cemetery is heavily overgrown with briars and saplings shaded by moderately sized trees. No grave markers are present but there are at least two dozen subtle depressions in the ground that probably indicate interments. A ditch and low earthen berm mark the boundary of the cemetery. It is unclear whether the ditch was excavated at the time the cemetery was in use or postdates the cemetery. When I-26 was constructed the roadway was widened so that the cemetery was left isolated but undisturbed between the east and west bound lanes of the highway.
