Unexpended funds appropriated pursuant to this provision may be carried forward to succeeding fiscal years and expended for the same purposes.

(C) From the escrow account established pursuant to Proviso 90.13 of Act 310 of 2008, the remaining funds shall be used to offset any operating shortfalls resulting from the Barnwell Low Level Waste Facility operations in order to preserve the economic viability of the facility. The amount distributed to offset any operating shortfalls shall be determined by calculating the difference between the allowable operating costs plus adjustments as approved by the Public Service Commission, and the access fees paid by the Atlantic Compact generators. Funds remaining in the account to offset operating shortfalls shall also be used to maintain access fees to the facility for Fiscal Year 2012-13 at the Fiscal Year 2009-10 level.

There shall also be paid from the escrow account the annual dues of the Southern States Energy Board.

(D) Of any excess funds collected above the amount identified in subsection (A)(2), there is appropriated \$2,000,000 to the Department of Natural Resources for the State River Basin Study Project-Water Resource Planning. The funds must be used for water data collection to provide scientific information on water resources in the state's eight major river basins.
