Thank you for your suggestion in regards to golf carts at Huntington Beach State Park. Unfortunately, State Law allows the use of properly permitted golf carts on secondary highways and streets within four miles of the owner's residence during daylight hours. Since there is no law defining a residence, it has been determined that the rental of a campsite establishes residence, even though such residence is temporary. Therefore, campers with a properly permitted golf cart may operate them on roads within the park as long as they follow the guidelines provided for the golf cart. We will certainly keep your recommendation in mind if this law ever changes.

I was really shocked that The pristine Huntington Beach State Park lets people ride golf carts around. I think this is a disgrace it takes away from the nature of the park. If people want to ride golf cart they can go the the other campgrounds in this area.
