Message:

Governor Haley, I am a retired SC teacher and Principal serving in Spartanburg Co for 42 years. Admittedly, I have not always agreed with your policies on public education. However, I would like you to know how proud I am of you as you have dealt with the devastating shootings in Charleston. Your quick decisions to seek the death penalty and, today, to remove the Confederate flag have totally reversed my opinion of you. It is time for the Confederate flag to come down. We have banned it's display in schools and on school campuses for years simply because it is offensive to so many. Even the Apostle Paul in Romans 14, taught that it is wrong to knowingly offend others. By flying that flag anywhere is offensive to millions of Americans. We Pledge Allegiance to one flag, the flag of the United States of America. The Confederate flag belongs in the State Museum. I wholly support your efforts to take the flag down and put this burden to rest.
