Lt. Governor Bryant,

As a support of representative government, I thought you would be concerned to know what is being done with no Legislative oversight.

Our National identity is a collection of memorable events and admirable values that we imbue in our children. That's why we take them to Kings Mountain, and to visit their grandparents graves. In the grand span of history, America is but a youthful society, still seeking to decide what we choose to remember and how we want to be perceive.

South Carolina has always played a pivotal role in shaping the history and destiny of these United States. Today we face a choice that will honor one and influence the other. We must determine which is more valuable to the future, a monument to the Greatest Generation or a train track.

I invite you to read carefully the attached Open Letter to the Governor regarding the destruction of the Charleston Naval Hospital Historic District and decide for yourself and, for your grandchildren.

Don Campagna
