## Individual Rolls for Quick Fixes & April Lawn Tips

Want a roll of sod? Just 1 roll?  
Can do!  
We have fresh cut sod daily.  
Call ahead and we can hold it for you to pick up.

***Sometimes areas of a lawn need a quick fix with just a few rolls of sod!***

There are sometimes patches and strips where a lawn struggles, due to challenges with the underlying soil or less-than-ideal cultural conditions. There is nothing wrong with putting a few rolls of sod down in an area where it might not last a long time, but will serve its aesthetic purpose for the time being.

### Examples of individual rolls of sod for quick fixes:

- ***New puppy*** tracking in dirt from a problem area by the back door where sod struggles to grow? **Solution:** Periodically refresh that muddy area with rolls of our sod to trap the dirt tracks.
- ***Grandparents*** coming to visit? Does that bare patch out the guest bedroom window really bother them? **Solution:** Patch it up with a few rolls of new sod and enjoy their compliments about the pretty swatch of green.
- Preparing your landscape for the ***big graduation party*** and parts

- of the lawn not quite up to speed? **Solution:** Get a few rolls and be done worrying!
- Throwing a ***garden wedding*** and the prettiest place for the bridal arbor puts the betrothed standing in bare dirt? **Solution:** We have gorgeous plush rolls of Zoysia, Centipede, and Bermuda you can use to ensure a verdant carpet for the bride and groom's fancy shoes.

### Why use sod for a quick fix?

- **Instant "wow" factor:** Sod gives immediate lush, green results.
- **It's inexpensive:** Single rolls of sod are available for \$5 each (psst . . . that's much less costly than annual flower bed plantings).
- **It's easy:** Small, easy-to-handle half cubic foot bags of **Soil3** are in stock for purchase with individual rolls of sod for easy addition of compost to improve your soil.
- **You can do it yourself!** The sod rolls and small bags of Soil3 will fit in the trunk of your car.

New small bags of **Soil3** Organic Compost now available.

## Late April Lawn Tips

### Mountains

- Stop fertilizing Fescue for the summer.

### Piedmont and Coastal Plain

- Now is the time to prepare to fertilize your warm-season lawn (Zoysia, Bermuda, Centipede, St. Augustine). In the most southerly areas, soil temperatures are warm enough to fertilize the warm season grasses (soil temps should be above 65 degrees).
- Our Total Lawn Food 16-4-8 is what you want for your Zenith or

- Emerald Zoysia, TifGrand or Tifway Bermuda, or Mercedes St. Augustine lawns.
- Remember that your TifBlair Centipede should be fertilized with very little fertilizer. We have our own special formulation just for it: Centipede Formulation 5-10-15.
- It's seed time again! Danger of frost is past - that means Zenith Zoysia and TifBlair Centipede seed can now be planted safely.

Our stylish [Allett reel mowers](#) have 6 removable cartridge options for mowing, scarifying, dethatching, verticutting, aerating, and brushing. Call to schedule an appointment to test mow this fine machine.
