Message:

I live in the rural area of Dorchester county. I presently notified the county department of road maintenance about the condition of the road that I live on which is a dirt road. I was advised to speak to my county councilmen. (Richard Davis) for help because the road is considered a private road and the county don't have the authority to do repairs. I don't understand why it's considered a private road but upon speaking to Mr. Davis he agreed to do what was needed to have the road maintained to the best he's allowed. This was in March as of today I have gotten no response from councilmen Davis nor has anyone from the county contacted me concerning this problem. I would like to know how I can go about getting help with this road because of the continuing traffic the road has holes and to avoid the holes the traffic is starting to come into my yard again I don't understand why it's a private road or even what that means but could you please direct me to the proper people for help. Thank you in advance Melissa Kelly Gardner
