Mobile Caseworker Sample Screens.pptx

Hi John,

I met with Christian Soura last week and we discussed SC DHHS. He suggested I reach out to you. I'm hoping to set up a meeting to discuss solutions that we have to address fraud. SAP has a unique product which has migrated from the intelligence community to be utilized in HHS solutions.

Could you let me know a time that would be convenient for you and your staff to speak to you regarding this solution?

Here's a couple of quick links:

And here's the link to the City of Boston dashboard, which could be used to visualize creating something similar for SC HHS:

Thanks John, we look forward to speaking with you.

Sue Keith
