Subject: Thank you all for helping me

Please feel free to forward this email to anyone that should be made aware of a job well done by these people at SCDC.

I want to make sure the people I have worked with for the last week to get help for my son, John Springer, 294365, know how grateful I am.

So many people either don't do their job at all or just do what they have to. Not these people. They don't just do their job but do an outstanding job of it.

Please thank these people for John and myself. If I could they would get a medal and a standing ovation. Wish there were more people like them in SCDC

Where do I start? Well, with

Ms. Shreen (not sure of her name) Behavioral/Mental
