Dear Governor Haley,

America's educational system needs to be infused with the same freedom and choice that we enjoy in other aspects of our lives. A child's zip code should not be an accurate predictor of their future prosperity or poverty.

A one-size-fits-all approach to education is not the answer. Parents know better than government bureaucrats what's best for their children. It's time to restore parents' decision rights over how and where their children are educated.

I'm writing to you today urging you to support school choice and freedom in education.

Sincerely,
Edwin & Barbara Strickland
