We're heading to Santee State Park this evening and due to the storm, will be arriving after the park closes. Does anyone know if this park has a locked gate or should we be able to drive right in?

It should be open and you should be able to drive in. Are you staying in a cabin or camping?

We prob won't be there until 9:00. Will it still be open?

You're good to go! There are no gates at Santee.
