Subject: moving up

Friend,

It's always a great day in South Carolina, but recently it's been exceptionally exciting. We've announced many businesses coming to our state, investing millions of dollars and creating thousands of jobs. Just last week we announced more than 150 jobs coming to Winnsboro thanks to Enor Corporation's multi-million dollar investment.

By continuing on this path, South Carolina is becoming one of the top states to do business in. Our plan is to keep growing our economy with jobs and investment, **but we're going to need a bit of help to make sure we are able to do that.**

We have a critical deadline coming up in just 5 short days. We're pushing to get 150 August online donations before midnight on the 31st. This deadline is extremely important.

Please, we need your support to make sure we can continue our progress in South Carolina. **Can we count on you?**

Or donate some other amount: www.NikkiHaley.com/Donate

Thanks for your continued support,

Nikki
