[leahlam](#) It was mind blowing after i made \$15,000 in a week with an investment of \$1,500 with Mr Victor @victor\_dariofx mentorship trading platform. For individual like me, I wish i had been doing this years before now. Thank you @victor\_dariofx

[jenny462021](#) One of my biggest places to go is to the rivers and the lakes. Being at the water replenishes my mental state of mind. My body and my soul. All the negative all the chaos all the stress everything that I have taken in within myself all the burdens that I have asked God to let me carry for the people. Everything from my mind to my spirit to my soul releases right there at the water. Everything is just emptied out right there so when I leave the water I'm ready to take on more I can handle it I can do this because I know I have to do is just get on my knees and ask God to take my burdens and he does and every time he does I'm ready to take on more. I had a kayak that was stolen from me was given to me from a friend. It's kind of hard for me to be able to hold and actually keep anything in my possession so I look at it this way, it's just material stuff it's not meant for me to keep whether it's mine or there's somebody gave it to me but it's of this world and it belongs in this world there's things that I have or had that I've lost that's taken that's stolen they need it more than I did maybe it's something trying to tell maybe it's God trying to tell me that don't dwell too much on material stuff cuz when you do you seem to forget that God is there rely on him instead of all the material things he just gives us stuff or we just accumulate things to learn from or to experience whatever it is we're supposed to learn. I would love to be able to go back to the water and just get in my kayak and just go.
