Subject: PA Update

Under TAG authority we have 11 Line Patrol Teams working with the SCHP. As of 0830, one team has already assisted 2 calls (motorists) with SCHP. We can support on State active duty for limited period under TAG authority which we are doing for this winter weather event which is projected to be short here for SC. Teams are on scene at their locations with SCHP - and have been since this morning. They will respond when needed.

SGT Pravato is supporting ESF15 since 0600, 2LT Dorgan will replace her at 1300. I will float between JOC, ESF15 and TAG building. SSG DiG and CPT Hare are in upstate trying to link up with any teams and post photos to a Flickr album and send me social media posts. I'll keep you all updated.
