Katherine, thank you so much for your kindness and your willingness to always help everyone. I thank you for getting the programs signed for these little guys, they were thrilled. One is a child that I have worked with for almost 7months who has been in and out of the system. He is doing so wonderful and is making A's and just has made a remarkable recovery. So, with all that said, you really made his day, thank you so much.

If I can ever help you please call me. Sharon Fennell
