Subject: I need you r help getting emergency medicaid

---

Honorable Gov Kevin L Bryant:

I am a family practice physician, practicing in Greenville SC for 17 years. Recently my son Nathan V Patnam Dob [REDACTED], who is a student Wofford college, was diagnosed with a major illness that needs complex treatment, Unfortunately he has a high deductible medical insurance, I applied for emergency Medicaid for him which can cover his deductibles but his Medicaid application was rejected without explaining us the reason. He does not have any major bank accounts or job or trust funds or properties.

I appreciate if your office can help us to get the temporary Medicaid to cover his deductible, so that he can get back to college and finish and get a great job. This will be the greatest help to us.

Raju Patnam MD
