Hey Chaney,

I was wondering if you could add my email (mhigdon@live5news.com) to your distribution list?

Thank you J

All-

I wanted to make sure you saw the attached proclamation from Governor Haley. Thanks so much for helping us get the word out to ensure all South Carolinians are prepared for winter weather.

South Carolina Winter Weather Preparedness Week

Columbia, S.C. (Monday, December 5, 2016) - Governor Nikki Haley has proclaimed the week of December 4 through December 10, 2016, as South Carolina Winter Weather Preparedness Week. The South Carolina Emergency Management Division and the National Weather Service along with the agencies that comprise the State Emergency Response Team encourage everyone in South Carolina to prepare for

severe winter weather by checking supplies and safety plans now.

Snowfall, ice storms and extreme cold can immobilize an entire region. Even areas that normally experience mild winters can be hit with an ice storm or extreme cold. Winter storms can result in flooding, storm surge, closed highways, blocked roads, downed power lines and hypothermia.

Residents should take the proper winter weather precautions now during milder temperatures while the winter emergency supplies are in low demand:

- § Include winter supplies like shovels and rock salt in your household emergency kit.
- § Prepare for possible isolation in your home by having sufficient heating fuel; regular fuel sources may be cut off.
- § Insulate pipes with insulation or newspapers and plastic and allow faucets to drip a little during cold weather to avoid freezing.
- § Learn how to shut off water valves in case a pipe bursts.
- § Portable generators are commonly used in the winter as a result of storm-induced power outages. Carbon monoxide fumes are odorless and deadly. Follow manufacturer's instructions to prevent death from carbon monoxide.
- § Make sure the fireplace has a sturdy screen to stop sparks from flying into the room. Ashes should be cool before putting them in a metal container. Keep the container a safe distance away from your home.
- § Chimneys should be cleaned and inspected every year by a qualified professional. If not, it can become filled with highly flammable layers of creosote.
- § Have your vehicle serviced to ensure it is prepared for the winter season.
- § In every vehicle, place a winter emergency kit that includes: a shovel; windshield scraper and small broom; flashlight; battery-powered radio; extra batteries; water; snack food; matches; extra hats, socks and mittens; first aid kit with a pocket knife; medications; blankets; tow chain or rope; road salt and sand; booster cables; emergency flares; and a fluorescent distress flag.

Download the Severe Winter Weather Guide

Developed by SCEMD and partner agencies specifically for South Carolina, the Severe Winter Weather guide contains tips on what to do before, during and after a major winter storm. It includes check lists, information on how to get the current status of government offices and more. The S.C. Severe Winter Weather Guide is available for download at scemd.org.
