The Honorable
Nikki Haley, Governor of South Carolina
Office of Governor
1205 Pendleton Street
Columbia, SC 29201

Dear Governor Haley,

We have written to you before and at this time we are requesting information concerning the South Carolina Electric and Gas rate increases. SCE&G is again requesting a large increase in rates, forcing the customers to pay, yet again, for the nuclear plants construction and all other expenses related to them.

What we are asking of your office is information concerning what your office has done, or is planning to do in this case. We do not see that the Public Service Commission is representing the public in any way. Every request for more money from the customers has been granted in spite of protests and proof that the PSC should not do so.

The PSC has not represented the interests of the state nor the citizens of SC. The PSC and the Office of Regulatory Staff (ORS) are paid through your office, by taxpayers' money. However, they appear to have no oversight for anything they do.

Sandra Wright

Joe Wojcicki
