To the Honorable Lt Governor Kevin Bryant,  
Thank you so much for looking into this matter. It has completely devastated my career. But I have faith in God it will be resolved.  
Best Regards,

I think it may require something with the EEOC. I'd like to get Alan Wilson's thoughts. It has made others unmarketable and homeless because they are no longer considered in their job field. I'd like to have a forum to speak about this in the state house in front of employeement/ business people. China is implementing a point system in 2020 that will rank your character/ integrity by others opinion of you. I'd hate to see the implications of that here.
