

Ed Robinson
Laundry & Dry Cleaning
— *Let Ed Do It* —

Letter of Recommendation:

Ron Page played a key role as part of the Ed Robinson Companies from 3/12/13 to 8/15/14. Key leadership of the Ed Robinson Companies created a management position to bring Ron on board due to his persistence and commitment in job search and network opportunities. Ron was initially hired to be an Area Manager for three Ed Robinson Dry Cleaning locations. After nine months of proving his networking and relationship abilities Ron was promoted to Business Development for the Fire Restoration Division.

During Ron's time as an Area Manager he oversaw nine employees and \$676,000 in annual revenue. Ron was responsible for hiring, training, and developing his customer service staff. He was also responsible for the retention and development of current and new business. When Ron was promoted to Business Development for the Restoration Department he was assigned the Coastal Territory of South Carolina. He was responsible for retaining key accounts and attracting new business. During the first three months Ron secured business from two brand new accounts that had not currently worked with the Ed Robinson Companies.

Ron is an ambitious employee that is always seeking to better the organization. He proved time and time again that he is willing to do grunt work as well office-development tasks. Most importantly Ron is loyal to the core. This letter is to support his recommendation for hire.
