January 14, 2016

Dear Governor,

I am sure there are many fine and attractive buildings in your State and we would like to recognise and reward the best of them in the Beautiful Buildings category of our International Green Apple Awards campaign for the Built Environment & Architectural Heritage, 2016.

We have been running the awards since 1994, but this is a new sector this year which will uniquely celebrate the positive contribution made to our visual environment by buildings of all types and sizes around the world.

All we need is one or two photographs and a short description of the building. You might wish to nominate a few buildings yourself (there is no entry fee), and hopefully you are able to bring this unique opportunity to the attention of people and organisations in your region who can benefit from the initiative.

We are inviting entries for new and old buildings of all types. Anything from a cottage to a castle; from a home to an office; from a hotel to a public building; from a monument to a renovated ruin...

As long as it makes a positive visual impact on our built environment, we would like to hear about it.

There will be separate categories for each type of building, with Gold, Silver and Bronze awards to be won in each category.

More details can be found under Green Apple Awards for the Built Environment at [www.thegreenorganisation.info](http://www.thegreenorganisation.info) and we can accept entries online, by post or email.

The closing date for free entries is February 28, so I hope this gives you ample time to acquaint your appropriate colleagues with this new opportunity.

Thanking you in anticipation of your valued co-operation, and wishing you a Happy New Year, I remain

Yours sincerely,

Roger Wolens  
Managing Director
