Subject: Input for FCSP Manual

As we were invited to share input about the FCSP manual, Upper Savannah AAA would like to ask that we have some clarification about the OLSA reports required and also ask for templates for our reports in OLSA, so we can report the correct information.

It is our understanding that a data entry manual is also being developed. At this point, we are not sure exactly what to put in AIM and what to put in OLSA and whether we should, at some times, be putting the same information into both systems.

Thanks for help in clarifying this for us.

Vanessa Wideman
AAA Director
