

Mr. Superintendent,

12-15-15

On 12-10-15, my daughter Taylor text me from Landrum High School & told me she was being made fun of and harassed by fellow students on Twitter. I looked into it, & those same students immediately started on me! Over the course of 11 hours (some during school, some after) I have over 90 screenshots of severe harassment sent to me & my daughter. Some are sexual, some are death threats, with photos attached! The principal was contacted immediately & brought the students in, checked their phones, & put them in ISS for 3 days. That made them more angry, so that is when the severe threats started. I also filed a report immediately w/ the school officer, & Greenville County Sheriff's office, because I live in Greenville County. I feel like nothing is being punished correctly! These students are still walking around in the school, and my daughter is scared, but being told by the principal to keep coming & hold her head up. I am also a district employee as a substitute teacher. Do you think I will be allowed to work at LHS among these students again? I think not!

I have provided photo proof of everything to the school, & will provide to you if needed! I also have emails between myself & Stephanie Mathis @ your office w/ photos attached. Feel free to contact me - 864-357-3192 Amy Bolick
