Governor – Here are a few messages from constituent emails we've received about MOX:

I don't want to waste your time. I just wanted to say thank you for sticking up for the MOX project.

It has brought busniess here,People here, and helped skilled crafts find work. So thank you for wanting it to stay alive

I want to thank you for trying to save our project! It means a lot to me that you guys in Columbia are fighting for us! I hope it works! We really need this in our area! It will absolutely devastate aiken. I moved here and bought a house with my family, I have no idea what I am going to do and I am sure I am not alone! Just so you know a lot of people are really hoping they change their minds about building MOX. Good luck and thank you!

Thank you Gov. Haley. We appreciate the leaders of SC fighting for us at the MOX Project.

I am an employee of the Mox Project and very concerned about this latest development.

Please continue to fight for this project as my livelihood as well as others depend on the government and Obama honoring their commitment to this project and its employees.
