---

I'm fine with you sharing it with them. We hadn't really thought about how Wednesday would play out yet at this point - we thought we'd give Sen. Fair a chance to take a look at it and then see how he'd like to proceed. Thanks.

Thank you, Christian. And, I'm especially thankful to you and Governor Haley for including ICS in this conversation.

May I share this draft amendment with our three original authors in the House (Allison, Erickson, and J. Smith)? They will be a part of our discussions over the weekend with Senator Fair.

For clarification, is a member of the Governor's legislative affairs team planning to present this at the K-12 subcommittee meeting on Wednesday morning? We were working with staff on a technical amendment from Sen. Fair to clear up some typos, terminology, and citations, and it would be helpful to know what your next steps will be so that we can get back with you in the beginning of the week to share our amendment and thoughts on this document.

Thanks-

Joe,

The proposed amendment is attached. I commented it pretty extensively, so that should help to explain what we're proposing to tweak and why. We just sent it to Sen. Fair a few minutes ago, since it would be an amendment to his bill. I let him know via our legislative affairs team that I was also going to share it with you. Thanks.
