

To the Honorable Governor Nikki Haley of South Carolina,

On June 20, 2014, I traveled from my home state to South Carolina to visit the Beach with my two children. I got off at Bishopville, South Carolina exit to get gas and take my two children to McDonald's. I parked at the Waffle House. My two children and I walked over to McDonald's from the Waffle House parking area. When we came back out my car would not start, my two children stayed at Southland motel. The next morning officer King gave us a ride from the motel to our car to see if it started. It wouldn't! Deputy Kelly and the Carrington's showed up and forced us to go to the Carrington's on Lower Lee Rd. in Bishopville, South Carolina. It is against the LAW for an officer to force us to go to her friend's house, the next day. Deputy Torres showed up he testified how he was checking on Deputy Kelly hostages. Cindy Davis bodily threw my 9 year old son to the floor. It was for Andrea Cooley and her black friends: The Gray's and his mother is Mary Jones according to Deputy Torres. The Gray's was in Berkeley Springs in their GMC burgundy colored van stalking my family out. They our bad people. In the state of WV the Sheriff and his deputies and the FEDS knocked on Mary Jones door for kidnapping of two children, her son James Gray needed a kidney they expected to steal one. They are the ones that destroyed my vehicle according to the police. James Gray's father. These people deserve to go to jail they are pathetic hurting innocent people. In fact this man stalked me to Camden, South Carolina, and he is still trying to stalk me. I at a Motel he called and asked if I left and came back in Sumter, South Carolina.

My two children were thrown in D.S.S. custody to cover up- this kidnapping and harassmt to my family.

Corporal Torres testified saying that he was told by the Carrington's that we was chased for a kidney, I do not know how much of this body organ stealing is true for they have denied me medical records. I do know that a girl pretended to be me. This in South Carolina records and she got arrested. This sounds crazy but very true!

I am asking for your help in getting my children returned to me. I am tired of my family being abused physically and mentally. These kidnappers and child abusers need to go to jail.

Thank you for timely manner in this very important matter!
