October 6, 2014, 6 AM

Dear **Members** and **Friends**,

While we work behind the scenes to improve our efficiency--which includes a restructuring of our organization as well as the hiring of a new email delivery company--we ask for your patience.

Due to the rising cost of **Constant Contact**, we have decided to use **Robly** to handle our on-line communication needs--and the kinks in this transition have not yet been ironed out.

This is one reason for our sporadic emails.

Since our last communication (September 23), there have been significant newsworthy developments which demand our attention and commentary.

### **Benjamin Netanyahu Links the Dangers of ISIS, Iran, and Hamas**

We would be remiss if we did not mention **Benjamin Netanyahu's** recent masterful speech before the **United Nations Assembly**. If you missed his defense of **Israel** and his warnings regarding the triple Islamic threat--**ISIS**, **Iran**, and **Hamas**, please click the You Tube link below:

### **The Obama Administration's Response to the Ebola Crisis**

Due to the incredulous nature of the charge, we dismissed, out of hand, the notion that the **Obama Administration** was so eager to put its newly minted nationalized healthcare system to the test that it purposely (as opposed to incompetently or unwittingly) permitted the deadly ebola virus to enter to the heartland of (red state) Texas.

On a much more serious note, there is a certain irony to this horrific development of this story that seems classically surreal.

Despite all the resources available to the administration, it appears no attempts were made--or have yet to be made--to keep carriers of ebola from penetrating our shores. As a result, the virus has successfully migrated to the interior of our nation.

Well, it stands to reason, if you cannot control illegal immigration, how can you control a disease that is spread by contagious folks entering or re-entering our country from infected countries, at will--without proper screening?

While much is understood about the disease--and a vaccine has been developed to treat it--ebola's permutations must be considered dangerous and unpredictable.

In the meantime, President Obama has committed to deploying 3000 American troops to Africa as a first line of defense against the further spread of the disease. Does he have a first line of defense for the homeland? Apparently not--and that is scary.

### **The Upcoming Pennsylvania Gubernatorial Debate**

In Pittsburgh, Wednesday, October 8, **Tom Wolf** and **Tom Corbett** will face-off in their third and final debate of the 2014 campaign.

On Thursday, October 9, the respective Democrat and Republican candidates will be joined in our region by prominent surrogates.

The **National Constitution Center** will, once again, feature President Obama's first

**Secretary of State, Hillary Clinton**--this time at a fundraiser for Tom Wolf.

Just last year (September 10, 2013), the National Constitution Center awarded Ms. Clinton the **Liberty Medal** on the eve of the first anniversary of the **Benghazi** attack on our **American Embassy** (September 11, 2012). **Four Americans**, including the **American Ambassador to Libya**, were killed in the assault.

The **Clinton/Wolf fundraiser** is scheduled to begin at 5 PM.

Also this Thursday, at 4 PM, Governor Tom Corbett will be joined by **Governor Chris Christie (R-NJ)** for a GOP rally at **The Valley Forge Military Academy**. This event is free and open to the public--but if you are interested in attending, you must register in advance by clicking the following link:
