Governor Nikki Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, SC 29201

Dear Governor Haley,

Please end delays on complying with the Clean Power Plan and advancing clean energy.

Without measures like the Clean Power Plan to cut carbon pollution, the forecast for wildlife is dire. Last year was the hottest year on record, beating out 2014 and continuing a disturbing trend that has wildlife feeling the heat.

The Clean Power Plan is a critical step to our success in protecting wildlife from climate change and charting the course for a clean energy future.

Do not delay further. I urge you to please start implementing the Clean Power Plan now.

Sincerely,

Ms. Carin Pavlinchak  
1663 Kallaramo Rd  
Rock Hill, SC 29732-1548
