There seems to be an extreme difficulty with understanding why illegal immigrant is actually hurting our country, rather than making it better. Immigration in itself is not bad in the slightest. In fact, our country is just that: a melting pot of immigrants. However, it is only great when it is done the right way. Without following the laws we have in place, our system will quickly crumble.

Here is a step by step explanation of the problem with illegal immigration. The sentences are short and there are pictures, so even the liberals should be able to grasp it this time.

THE PROBLEM WITH ILLEGAL IMMIGRATION

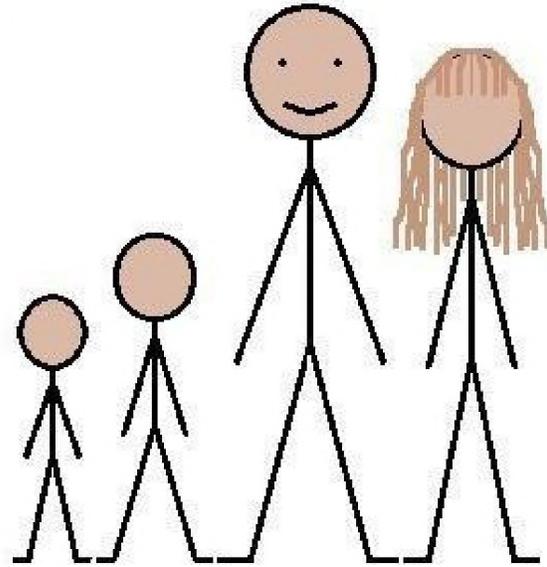

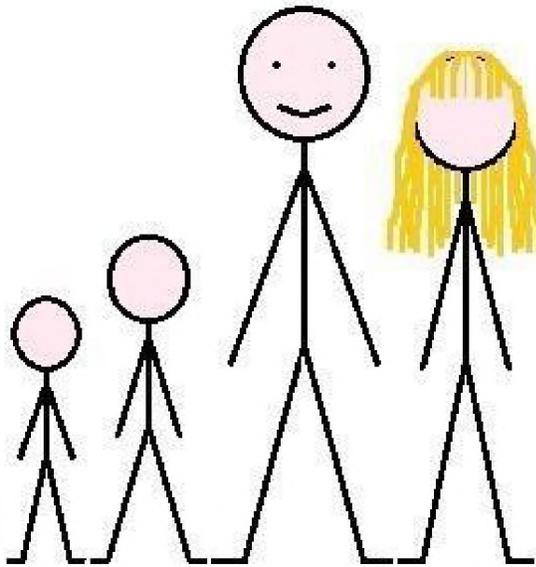

Explained as if you were 5 years old.

Meet John Legal and Juan Illegal.

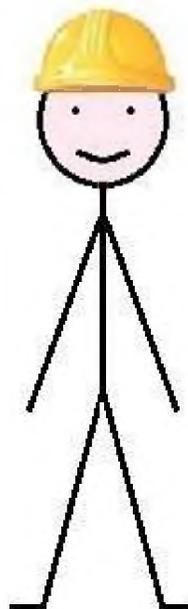

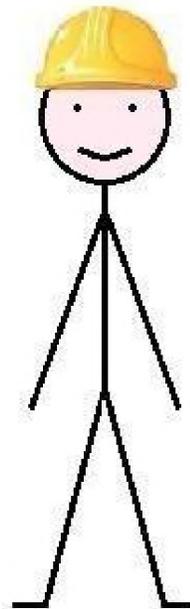

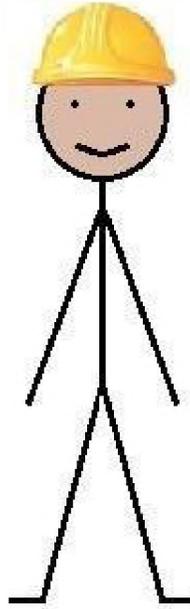

Both have a wife and two children and live in Arizona.

John Legal works in construction, has a Social Security Number and makes \$25.00 per hour with taxes deducted.

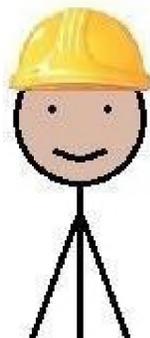

Juan Illegal also works in construction, has NO Social Security Number, and gets paid \$15.00 in cash “under the table”.

**John Legal earns \$25.00 per hour x 40 hours
= \$1000.00 per week, or \$52,000 per year.**

Now take 30% away for state and federal tax.

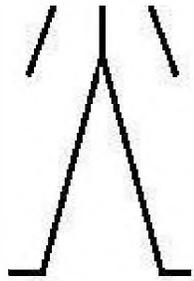

John Legal now has \$36,400.

**Juan Illegal earns \$15.00 per hour x 40 hours
= \$600.00 per week, or \$31,200 per year.**

Juan Illegal pays no taxes.*

Juan Illegal still has \$31,200.

* About half the illegal aliens in the U.S. do file tax returns, but the vast majority of them don't pay any federal income taxes. Instead, they use these returns to claim refundable tax credits, which are a form of cash welfare. In other words, illegal immigrants mainly use the federal income tax code to collect money from U.S. citizens.

John Legal seems to be in better shape.

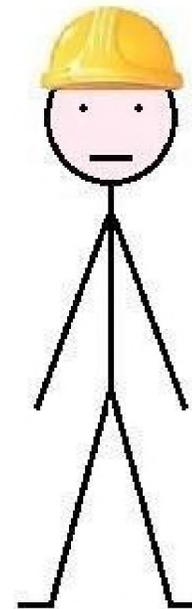

BUT:

John Legal pays medical and dental insurance with limited coverage for his family at \$600 per month, or \$7,200 per year.

John Legal makes too much money and is not eligible for food stamps or welfare. John Legal pays \$500 per month for food, or \$6,000 per year.

John Legal pays rent of \$1,200 per month, or \$14,400 per year.

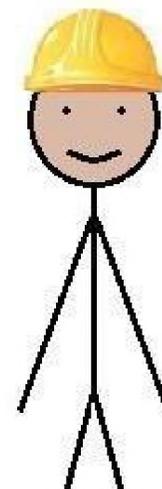

John Legal now has \$8,800.

Juan Illegal has full medical and dental coverage through the state and local clinics and emergency hospitals at a cost of \$0.00 per year.

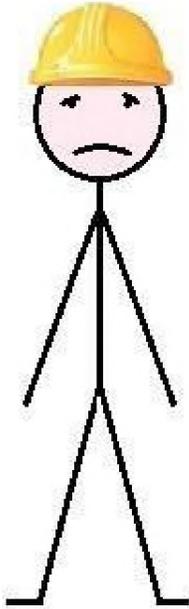

Juan Illegal has no documented income and is eligible for food stamps, WIC and welfare.

Juan Illegal receives a \$500 per month Federal Rent Subsidy. Juan Illegal pays out that \$500 per month, or \$6,000 per year.

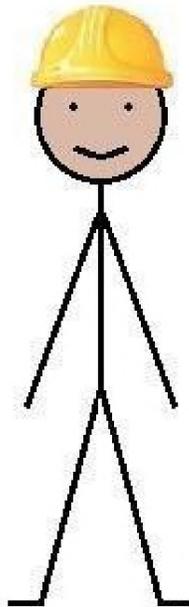

\$0,000 per year.

Juan Illegal still has \$31,200.

John Legal has to make his \$8,800 stretch to pay utilities, gasoline, toys, clothes, malfunctioning car or appliances, etc. for the entire year.

John Legal now works overtime on Saturdays or gets a part time job after work.

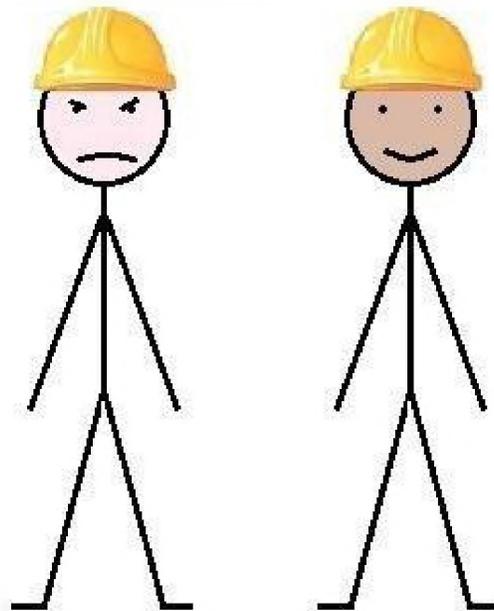

Juan Illegal has to make his \$31,200 stretch to pay utilities, gasoline, etc. and what he sends out of the country every month.

Juan Illegal has nights and weekends off to enjoy with his family.

John Legal and Juan Illegal both enjoy the same police, fire fighters, road maintenance, water and land management, and other tax-funded services.

But John paid for them and Juan didn't.

But wait. What about the children?

THINK OF THE CHILDREN?

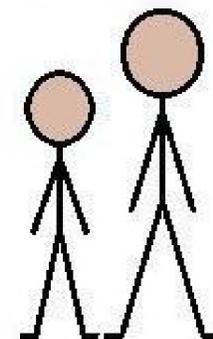

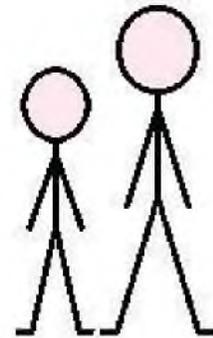

Well, both John Legal's and Juan Illegal's children attend the same elementary school.

John Legal pays for his children's lunches, while Juan Illegal's children get a government sponsored lunch.

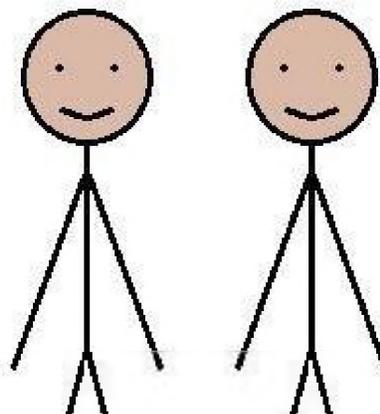

Juan Illegal's children have an after school ESL program. John Legal's children go home.

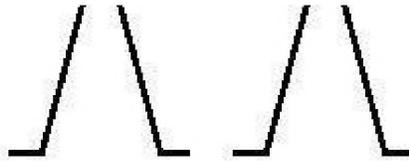

When they reach college age, John Legal's kids may not get into a State School and may not qualify for scholarships, grants or other tuition help, even though John has been paying for state schools through his taxes.

Juan Illegal's kids "go to the head of the class" because they belong to a minority, and have a much higher chance to get a free college education.

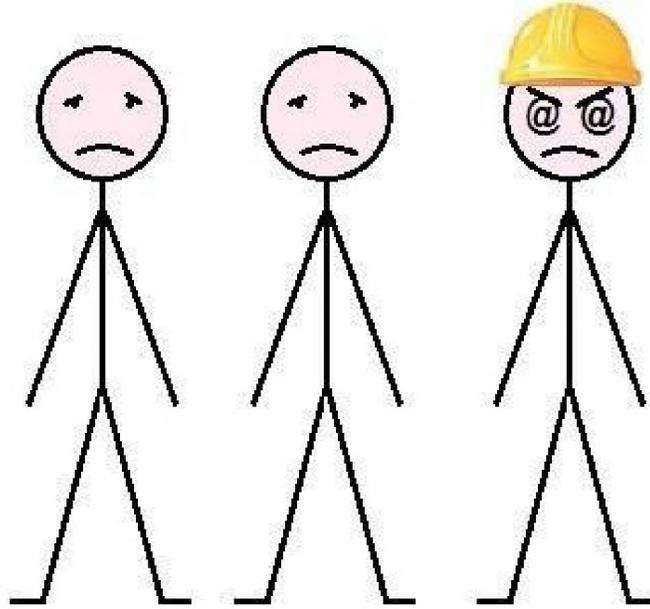

Once Juan Illegal's kids are adults and out of college, they then enter into the "diversity circuit" and will get multiple offers from numerous corporations for affirmative action/EEO/diversity jobs.

John Legal's kids, after college and while in debt, will have little to no job offers and will likely move back home to live with John Legal.

**ILLEGAL IMMIGRATION IS THEFT.
(It's illegal for a reason.)**
