The Honorable Ladies and Gentlemen of the SC Senate
Post Office Box 142
Columbia, SC 29202-0142

Dear Ladies and Gentlemen of the Senate

My name is Micheal Hunter, President and CEO of InSite Support Services, Inc. in Newberry, South Carolina and I am writing in support of Eleanor Kitzman's confirmation as the Director of the Department of Health and Environmental Control.

I first met and worked with Ms. Kitzman around 15 years ago when she was a client of InSite's and I was quite impressed with the vision she possessed for building her own company and the leadership she demonstrated in executing her plans. I later had occasion to seek her input as a past client, and as the then Director of the SC Department of Insurance, in order to ensure that we developed a service offering that was both in full DOI compliance as well as a valuable business offering. Ms. Kitzman's input and advice proved to be extremely helpful at that time and then as now, I have appreciated her candor and insight on various matters.

The position of Director of DHEC is clearly an important one that should be held by someone as deliberate and discerning as Eleanor Kitzman has impressed me as being in our professional relationship over many years. The State of South Carolina would be lucky to have someone of her caliber serving in this role.

Sincerely,

A handwritten signature in dark ink that reads "Micheal J. Hunter". The signature is written in a cursive, flowing style.

Micheal J. Hunter
President & CEO

A CUSTOMER SERVICE OPERATION LIKE NO OTHER!
