Comcast Cares, About Hunting Island!

Album created at 14:31:04 on 5/07/2012 UTC · 

Comcast Cable has an event every year called Comcast Cares. This year on April 14, the Hunting Island State Park lighthouse fence and outbuildings were painted by a group of volunteer employees from Comcast Cable. Erik Milligan with Comcast Cable is the technical supervisor for the local market and led the charge getting it coordinated and making the project happen. Comcast purchased the paint and supplied all of the labor. It was a great community service project. We are so glad that Comcast Cares!

Thanks!
