**Subject:** SCPRT violations need answers

---

FYI . I also want to inform everyone our own state PRT run by Duane Parrish in my opinion is in violation of all SC for profit media by selling advertising on its Website [Discoversouthcarolina.com](http://Discoversouthcarolina.com) . Why would any media pay state taxes to a State that also competes with them for ad dollars . This site like our state chamber sites must stop this practice . Their sites should be purely directory sites promoting tax paying media and dues paying members only . No business transactions or advertising sales . Like the Chambers I informed Duane Parrish this practice must stop  
And he replied he just sold a few ads , a few is to many.  
I will let the lawyers , accountants , IRS and state official chime in on this . My questions are as follows

1 State entities do not have to file a form 990 how does this effect unfairly competing against Sc tax paying media by selling advertising on [Discoversouthcarolina.com](http://Discoversouthcarolina.com). Further .com means commercial this is not a .gov type site or URL

2 Does the state have to pay taxes to IRS for running a commercial type site selling advertising ?  
What SC law allows this ? Is this another SC Supreme Court case in the making ?

3 . Would this be considered unfair trade , competitive and business practices like our SC chambers are doing selling ads , receiving and using tax payers money including media taxes to compete unfairly? Does this all mean Skip Hoagland and others in the media business can now legally stop paying all federal and state taxes and pay ourselves 400k annual pay packages , unlimited travel and golf like Bill Miles on Hilton Head. Does this mean we can all use our tax free monies to influence and surround ourselves with buddy boards to allow us free rein to do as we wish ????? Perhaps the smart thing for me to do is drop all lawsuits and IRS whistle blower and just run my companies as the Chambers and State does and stop paying all taxes ????

4 How much does the State spend in marketing driving traffic to its websites ? Goggle ranking , newspapers , billboards , magazines etc

5 SCPrT media kit cost to advertise? Does every company pay the same rate ? List of all companies currently advertising and how much each pays ? List of all past advertisers and how much paid ? List of all advertisers contacted and sales pitch to advertise ? All subject to Foia Correct ?

6 how many SC prt employees sell advertising ?

7 what are the total revenues for [Discoversouthcarolina.com](http://Discoversouthcarolina.com)

8 [Discoversouthcarolina.com](http://Discoversouthcarolina.com) promotes independent Chambers and CVBs over tax paying media. Huge abuse and bureaucracy and big government at its finest . Perfect example of big government trying to put free enterprise out if business .

9 how much has Scprt spent to develop their site ? What company did this ? Was there a bid to do so ?

10 Foia what financial info did SCprt receive from the local sc chambers before handing them millions . How is this money controlled and documented ?  
Lets start with Hilton Head ?

11 Foia our own town council what do they receive from the Hilton head chamber other than refusal to information stating SC law does not require them to give anything and our town simply writes them a check . Bill Miles , David Tigges Chairman of McNair law firm as well as Tom Upshaw of SC Electric need to provide answers ??? The big question why are these leaders fighting so hard not to give info and full transparency ????? What are they hiding ????? Do they run their companies the same , as well as business partners ? If I am wrong and as hard as I have attacked on all fronts why have they not sued me??? I again will let the IRS , Sc Supreme Court , Attorney General , Dept of Justice all weigh in on this .

I will let everyone add to this list !!!!!

Attached, Interesting !!! I was invited to the fundraiser event for Gov Haley and then told I wasn't . What happen ? Who is behind this abuse ? Explain what I have done to deserve this other than turning in 3 Chambers and CVBs in SC into the IRS Whistle blower

Program who are under 100% violation of US tax codes governing 501-c6 non profits, as well as filed a Foia lawsuit against the Hilton Head Chamber for refusing a Foia request by me as well as the largest media in the state . Plus exposed all types of abuse and violations

Certainly you understand by now accusing me of asking a question at a fundraiser as a sponsor on the governors stand on Foia for anyone receiving public tax monies is a good question and more than fair ?

To accuse me of embarrassing the governor or some of her contributors who are actively present in our local Chamber and executive board , who support and are fighting hard to not open the books and provide info , as well as ignoring violations to IRS tax codes , and other violations , just to make them happy for writing a check doesn't seem right Agreed?

We need answers and will get them . As you and everyone knows I am not one who welcomes nor allows abuse to me or others easily . Thanks
