The Commission declined to grant a request from the State Board of Health for an allotment of \$4500.00 from the Civil Contingent Fund for employing five additional clerks, and for \$1500.00 for Office Supplies. A communication was received from the Department of Public Welfare, stating that the Work Projects Administration had discontinued the payment of salaries of twelve warehouse supervisor. The Commission agreed that if the State Department would retain these employees at their present salaries, paying the salaries from the appropriation for the State Department, the Commission would support a deficiency appropriation amounting to \$9,671.76, at the coming session of the General Assembly; and the Secretary was <sup>so</sup> requested to advise the Director of the State Department.

The Commission then adjourned.
