

3725 Cairnbrook Ct.  
Columbia, SC 29210

The Honorable Nikki R. Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, South Carolina 29201

January 20, 2016

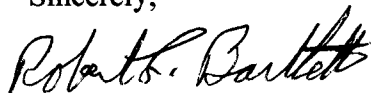

Dear Governor Haley,

I write this letter to elicit your support in rectifying the flooding problems within the Kinley Creek Watershed located in Lexington County. My property is situated in the Pineglen community; the entire neighborhood along with Whitehall of which has been substantially damaged due to flooding which occurred on October 4, 2015 and January 1, 2016.

I wish to be ensured that the recommendations stated in the current Kinley Creek Watershed Study of August 2015, be taken seriously and persons in authority select and implement the "best" recommendation(s). Apparently two prior studies of the Kinley Creek Watershed have been conducted, but as acknowledged by Lexington County Council at its meeting of January 12, 2016, no recommendations have ever been implemented.

Please give your most urgent attention to this very serious matter. The recent flooding within the Kinley Creek Watershed, located in District #2 has resulted in catastrophic structural damages to our homes, as well as immeasurable emotional turmoil. Please help us in ensuring actions will be taken to rectify the flooding issues. Two of the top three recommendations from the study involves buying out and demolishing homes along the creek. If so, we wish to consider our property market value prior to the 10/04/15 flood. Please keep me informed of your opinion and intention on this very serious and important matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert L. Bartlett", with a stylized flourish at the end.

Robert L. Bartlett
