Okay, we couldn't let #WildlifeWednesday pass without sharing this courageous crayfish who refused to back down from @acorn365 at Lee State Park! You never know what you'll find at a state park! 🦀

 **scstateparks** @plusthepat thankfully this little guy was not roadkill! However, this is why it's important to be cautious and alert while driving through state parks. Wildlife is all around!

[zbond6](#) @scstateparks Even wildlife you really wouldn't expect to be out on the road! I must say, I've seen deer deer crossings and I've seen turtle crossings, but never have I once seen a crayfish crossing! But I guess they have to move between habitats.

@donald_tradeokay he was really down to earth very honest and kind enough to explain to me more about bitcoin earning, I did my research and I was so convinced I was in the right place I invested and thank God I got my pay out of \$14,590 out of \$2,150 that I invest, so now I'm here to tell the whole world about him, stop losing your hard earned money and start earning with @donald_tradeokay.
