Kevin,

Far too many state and local HHS agencies rely on legacy IT systems and outdated processes. But agencies that leverage agile methodologies to modernize their IT systems can improve efficiencies and deliver better service to children and families.

Join *Government Technology* and DocuSign on November 15 at 11 a.m. Pacific/2 p.m. Eastern as we examine the core systems and processes that must be modernized to enable better child support and child welfare service delivery.

You'll hear:
- Alisha Griffin, former director of the California Department of Child Support Services, who helped overhaul child support systems in both New Jersey and California, discuss how modernization led to more successful outcomes in both states.
- Examples of technology applications that enable better solutions for child support and child welfare.
- Strategic imperatives in child support and child welfare that are driving change across state agencies and departments.

Featured Speakers:
- Alisha Griffin, Former Director, California Department of Child Support Services
- Seth Engel, Senior Product Marketing Manager, DocuSign

Moderator:
- Dugan Petty, Senior Fellow, Center for Digital Government and Former Chief Information Officer, State of Oregon

Registration is complimentary and the first 60 people to view the webinar will receive a $10 Amazon gift card - you must be a government employee and must stay logged on for the entire duration in order to qualify for the gift card.

Pleae feel free to share this information with any colleagues you feel would benefit from attending, and do let me know if you have any questions!

Thank you,

Alan Whipple
