### Other Designation:

Notes:

This is a circa 1965 Ranch style residence; it is four bays wide, with a central door located within an inset porch that is created by a slight overhang of the main roofline that is supported by decorative metal posts. To the west of the door is a six-teen pane picture window which is typical in Ranch-style homes to provide light to a public space, such as a living room. East of the door are one paired and one single six-over-six, double-hung wooden frame windows. Attached to the west elevation is an open, side-gabled carport supported by decorative metal posts; a portion of the carport is enclosed with one-over-one, metal frame windows and a newer style of brick. The roof is covered with asphalt shingles and there is an exterior brick chimney visible along the west elevation, between the house and carport. A structure at this location appears on the 1968 USGS topographic quadrangle, indicating a construction date prior to that year, and the style of the house is indicative of mid-1960s Ranch style houses.
