Subject: SRS 65th Anniversary

Hi, Chaney. Hope all is well.

We're working on an SRS 65th Anniversary package that will highlight the past, present and future of the site.

We obviously wanted to reach out Gov. Haley and get her perspective on site operations as well as the concerns associated with work.

I have a few questions below that I'm looking to get answers for by 3 p.m. tomorrow (Thursday, Oct. 15). Would be great if we could hear on the phone for about 5 min but if that's not feasible, then we can settle for emailed responses. Just let me know. Thanks, Chaney!

- 1) What has SRS meant to the state of SC in terms of its liquid waste work and other missions?
- 2) What do you feel your role is when it comes to SRS
- 3) Moving forward, what is your vision for the site and what are some of the concerns you have in terms of missions, budget, etc.?
- 4) Anything else you'd like to add?
