Ms. Byerly then presented the Annual Permanent Improvement Plan (APIP) projects (**ATT IIa**), explaining that the APIP is done once a year and includes permanent improvement projects expected to be begun during the spring fiscal year with funds either readily available now or reasonably expected to be available during the year. After the Commission's approval the APIP goes to the Joint Bond Review Committee and the Budget and Control Board for review and recommendation. The list of APIP projects was read, leaving time for questions and/or discussion. There was some discussion of the use of State funds for construction of the Padgett-Thomas Barracks at The Citadel. While the Committee did vote to approve all of the projects on the APIP list, it decided to submit a statement for the record that states: "We recognize that this is an exception. We do not normally approve a housing facility, and this is in no way to be seen as setting a precedent. This was a special exception due to legislative action."

The remaining items were reviewed with no further discussion. This being the case, a **motion (Byerly)** was made, **seconded (Olsen)** and **carried** to approve these projects as presented.

**3.05 Report of Committee on Planning, Assessment and Performance Funding
(No Report)**

Dr. Barton commented on the Budget Conference Committee discussions taking place this morning. The latest information is that there will be a budget by noon today. While there is no figure available yet, the amount of new money for higher education will be between the House proposal of \$21 million and the Senate version of \$35 million. More encouraging, we were told this morning that there will be some funding for each of the three federal matching grant programs that were requested in the area of teacher education. These programs are the Gear-Up Program, on which the Commission is the lead agency (a compatible program to our Higher Education Awareness Program (HEAP)); the teacher quality grant program and teacher collaboration grant program. We were told this morning we could expect some funding for both of the grant programs for faculty requested by the Commission – one for research grants and the other for technology. The other item to be approved is the Performance Funding Review Committee which will review the manner in which the Commission is implementing Act 359. The due date for this committee's report is January, 2001.

4. There was a presentation by Dr. Constantine Curris, President, Clemson University.

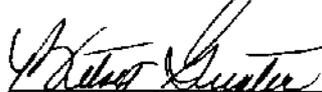

5. **Report of the Executive Director**
(No Report)

Rayburn Barton

6. **Other Business**

There being no other business, the meeting was adjourned at approximately 11:30 a.m.

Respectfully submitted,

Betsy R. Gunter
