Bringing sunlight back into South Carolina government.

You elect your legislators - but how do you keep them accountable if you don't know how they vote?
It's nearly impossible to make sure legislators are looking out for you, the taxpayers, without having an open and honest state government. Yet the South Carolina Senate took roll call votes only **1%** of the time in 2008 - meaning **99%** of the time their votes were accountable to no one.

Help us increase transparency in Columbia by contacting your legislator today.
Tell them to **support roll call voting** in the 2009 legislative session.
