Subject: way to help teather with school shootings

Dear Lt governor Bryant

My name is Gary Stoll From Taylors,SC I was thinking that if a teacher does not want to carry a gun in school they could use a cell phone App to let a GPS signal to a command post if they see someone shooting at students Then the police could send help to that area. It could also tell if there is more then one shooter in the school. I hope that this can help if it has not been talked about already.
