# Smart Cities Now

The world's go-to source for smart city news & trends

## How your transit agency can cut utility bills and emissions (Boston's doing it)

The transit agency serving the greater Boston area is working on a long-range energy management plan to cut energy costs and reduce transportation-related carbon emissions at the same time. There are a lot of approaches and opportunities, but which ones offer the biggest bang for the buck? Read on for ideas your city could use.

## 3 ways Australia is giving its kids a huge tech advantage

To thrive, cities need well-educated, high-tech workforces and cities across Australia are developing them by starting young. Check out three winning ideas from showcase schools that you can put to work in your own city. (Some of the ideas use tools you already have.)

### Compassionate Cities

## CH2M designs system to produce food and clean fuel in the desert

A recent CH2M post gave a biofuel research facility the company helped launch in Masdar City "cool project" status. We have to agree. Read about this innovative effort that tackles the dual challenges of food and water security while providing a sustainable source of clean fuel.

## Webinar: Entrepreneurship and Economic Opportunities in Cities

Join Meeting of the Minds for a free webinar, Wednesday, June 8, on Financing and Building Urban Entrepreneurship and Economic Opportunities in Cities. You will see how leaders have successfully blended the worlds of entrepreneurship, social impact, job creation and economic opportunities to deliver great results for their communities.
