WELCOME TO SMART CITIES NOW

Updates on smart city progress around the globe

NEWS & TRENDS

Top 10 sustainable cities? A new ranking shows European cities leading the way in sustainability, but also finds cities the world over are failing to meet the needs of their people. Click to learn why -- and also get details on a new Brookings report on the world's fastest growing metro areas and a look at U.S. cities ranked by how they use innovative transportation technology and tools. **MORE >>**

8 Spanish cities with bragging rights: Last year eight cities in Spain reduced electricity consumption by a whopping 64% and saved over 4,300 tonnes of C02. How did they do it? Working with Enel, they replaced traditional lamp posts with thousands of cutting-edge lights and smart controls. And in doing so, they created local jobs. **MORE >>**

Wins for Cubic, MasterCard, S&C Electric (and others too)
Cubic Transportation Systems and Transport for London celebrate ticketing win… MasterCard enters pact with Egypt to drive financial inclusion… Isle of Wight deploying new S&C Electric radio technology… Black & Veatch hired to design giant Saudi desalination project… Civic Resource Group will deliver enhanced Amazon Web Services solutions… Schneider Electric among world's most sustainable corporations. Get details at the site >>

PILOTS & PROJECTS

Accelerating smart cities in Europe: The new GrowSmarter initiative aims to dramatically speed the growth of smart cities in Europe by using three cities as lighthouse projects. Find out how the effort, which the urban institute is involved in, could create thousands of jobs and slash energy consumption. **MORE >>**

TOOLS & RESOURCES

Updated Oracle tool speeds storm response: Storms are challenging for utilities -- and certainly for their customers when outages occur. Oracle's updated analytics solution helps deliver advanced analysis and near real-time insights during storms, helping restore service faster, and even preventing outages in the first place. Get the details. **MORE >>**

7-step cybersecurity guide for cities
Cybersecurity is an issue that can't be ignored at any level of government. To help cities prioritize risks and assign roles and responsibilities for key aspects of cybersecurity within their infrastructures, Microsoft released a set of recommendations every city should consider. JESSE'S PICKS

Is your city READY?
I'm often asked what cities should do to get started down the smart city path. It's a tough question since no two cities are alike. So I point them to the Council's landmark **Smart Cities Readiness Guide** . It provides the objective, vendor-neutral guidance city leaders need to make confident, informed decisions.
