Dear Governor Nikki Haley:

Tiffany Maddison summed this entire situation up quite well: "The Second Amendment is timeless for our Founders grasped that self-defense is three-fold: every free individual must protect themselves against the evil will of the man, the mob and the state."

We have an administration that will not defend the sovereignty of this nation or secure the borders despite the will of the people.

We have a Congress that will not stand up for the will of the people and fight the corruption and unconstitutional action of this administration.

We have a Judicial system that will not take criminals and illegal aliens off the street and put in prison or deportation from the country.

We have a corrupt DOJ including a attorney general that will not enforce the laws currently on the books and will only enforce laws they/she feels are beneficial to their political party, personal beliefs and objectives.

We have a police force that can't do the jobs the law demands because of the corrupt and inefficient judicial system.

We have embolden criminals that will always have guns, legal or not, that will now only have defenseless victims to prey upon.

We have terrorism right now and here at home that this government condones by allowing unvetted entry, many potential terrorist with no intention of assimilating or allegiance to the USA and with more coming every day.

We have obscure and unauthorized by the people, private armies being armed and developed by this administration such as TSA, ICE, EPA, DHS etc. and even The Education Department.

This, Governor is exactly why the founding fathers wrote the 2nd amendment! 2nd after the 1st guaranteeing free speech. They considered it THE 2nd MOST IMPORTANT and for very good reason and now I see clearly why.

And in closing, there are 300M+ legal and law abiding gun owners, You want to make us criminals, well go ahead and support this nonsense. You will have 300M+ lawbreakers, because we will support our unbridled Constitutional right to own guns and defend us from the tyranny that is now developing as outlined above.

Sincerely,
John Henderson
