Re: The Best ~~American~~ Healthcare System

The Honorable Nikki Haley:

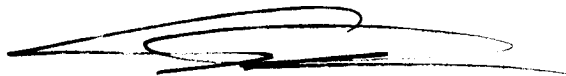

There exists an innovative private healthcare system to best serve America in which people, employers, companies and corporations own, control and responsible for their healthcare funds and resources. This private system covers and benefits all Americans by:

1. reducing and controlling the escalating healthcare expenses and costs of Americans, employers, companies and corporations, Medicare and Medicaid;
2. reducing and controlling the overheads, business costs and optimizing the quality of practice and healthcare delivery and earnings of American healthcare providers including about 980,000 physicians;
3. improving people's accesses to better-to-best healthcare;
4. optimally preventing and caring for chronic diseases of people;
5. optimally reducing wastes, duplications of healthcare services and fraud;
6. creating and operating a government-backed stop-loss for catastrophic illnesses.

The undersigned has the unique medical credential and 4-decades healthcare, business and technology expertise.

In anticipation of your inquiries, I remain,

Respectfully yours,

Anuthep Benja Athon, M.D.
