Hello! I'm looking to speak with your PIO, can you share their email?

South Carolina State Parks
at 16:33:54 on 6/30/2020 UTC

What question or info do you need? That will help me better direct you.

I'd like to introduce the public information officer to what3words, GIS resource - what3words is the simplest way to talk about location. It has divided the world into 10ft squares, each with a unique 3 word address made from three random words. Now people can refer to any precise location – a stadium entrance, a tent at a festival or a parking spot – using three simple words.

It is free to add what3words to your contact information for parks, campsites, boat docks etc. And we can help your team get set up. You can see how Arizona State Parks recently launched a what3words landing page: https://azstateparks.com/what3words and added what3words addresses to each of their individual parks: https://azstateparks.com/alamo-lake/explore/maps
