Governor Haley,

I would love to see the heinous sin of abortion ended altogether. However, if indeed as was said during the SOTU, that "every child matters", shouldn't that include the unborn child?

I am imploring all who have been voted in office to please exercise at least some kind of compassion and place some sort of restrictions on the inhumanity of abortion.

Medical experts have testified that unborn children can feel pain as early as 20 weeks after fertilization, which is about 4 and a half months. The fact is that anesthesia is given during prenatal surgery, precisely because scientists have come to realize that, as Dr. Kanwaljeet Anand testified before Congress:

"The human fetus possesses the ability to experience pain from 20 weeks gestation, if not earlier and the pain perceived by the fetus is possibly more intense than that perceived by term newborns or children."

A clear majority of Americans oppose abortion, and certainly on children old enough to feel pain.

I urge you to vote for the "Pain-Capable Unborn Protection Act" and for those in the House to defend it on the House floor.

We can debate the issue back and forth as it has been for over 40 years and 56 million deaths, but the bottom line is that it is time for this insanity to stop.

For all those reading this, aren't you glad your mother chose life? Please save the babies!  
Pastor Michael Parnell, B.Th.
