Chaney, please make sure you are okay with the specs before I approve the order.

Thanks,  
Katherine

No. AirWatch was not installed on the computer.

AirWatch would not have provided location information of the device. That feature is not available on windows workstations.

Regards,

Jim

Katherine,

I have spoken with Cheney earlier this morning and provided her the serial number, model and Asset # for the police report.

I have verified here hard drive was encrypted. The workshop is working on pulling a replacement from OEPP

inventory

Regards,

Jim

Katherine,

I have talked with Jim Ramsey.  
He said the laptop was encrypted.  
He can check to see if air watch was installed and we may be able to have an idea where it is located to assist in it's recovery if it is turned on somewhere.  
If air watch is loaded they can shut the computer down.

I told Jim if necessary he could use one of our computers for Chaney while we order her a new one.

Thank you,

Gary M. Anderson

Jim,

Chaney's laptop was stolen last night out of her car. We need to set her up with a temporary solution asap. Let me know if we have any computers on the shelf or if we need to purchase one.

We will be filling Zach's spot very soon, so we can't use that computer as a solution.

Let us know what we need to do.

Thanks,  
Katherine
